

PRODUCT DESCRIPTION

The Fortress 2000 Series is a lightweight, low budget temporary fencing panel that offer exceptional value. Featuring a 33mm tube frame and anti-climb Meshing, this lightweight but sturdy fencing panel is easy to install and will keep your site secure.

A key advantage is that the 2000 series can be installed by 1 person with amazing ease, at only 15kg spread across the 2.4m long panel, it is the lightest temporary fencing panel used in Australia.

Constructed to meet Australian standards AS4687, this panel possess long life and excellent durability. Each panel stands 2.1 meters high and will provide immediate security for any project or event.

The 2000 series temporary fence has proven itself time and time again on:

- Civil construction projects
- Large building and commercial construction
- Sporting & Public events
- Restricting access around safety hazards
- Environmental protection areas

With large levels of stock in all capital cities around Australia including Sydney, Melbourne, Brisbane, Adelaide Perth and Darwin. The 2000 series is available for dispatch at all times, enabling you to secure your site from the first day.

Our expert customer service specialists have all had at least 5 years in the industry and will provide accurate estimates of how much temp fencing you need and the best solution for your project. If you are working to a budget the 2000 series is the perfect fit for your requirements.

Fortress can also provide you with printed shade cloth, a great way of promoting your brand or projects awareness. We offer some great fence/wrap package deals and with all printing done in house, your order will still be delivered on time, every time.
