

BUY VS HIRE

Choosing the Right Temporary Fencing Solution

Whether you're securing a construction site, controlling crowds at an event, or setting up a temporary enclosure, temporary fencing is a crucial tool. But when it comes to choosing the right solution, the biggest decision is whether to buy or hire.

With our wealth of experience and customer feedback, we understand what you need and we are here to help you make the best decision.

Consider Your Project Scope

COST-EFFECTIVENESS

- Renting may seem convenient, but beware of hidden costs like replacement and extension fees.
- Own temporary fencing for long-term savings, avoiding rental fees and maximising re-usability.
- Buying gives you freedom: no contract or delivery limitations. It's available when and where you need it, providing complete control and flexibility.

Invest in Peace of Mind

QUALITY AND VALUE

At Fortress Fencing, we offer two distinct temporary fencing styles to match your needs:

2000 Series

Standard

Provides a lightweight and affordable Standard option, suitable for crowd control and short-term events.

Heavy Duty

An evolution of the 2000 Standard design, featuring the popular 32mm tube with a 2mm wall thickness and 4mm wire mesh, making it our sturdiest offering. It is specifically designed for demanding projects requiring maximum security.

3000 Series

Robust and durable design (40mm steel tubing), ideal for construction sites & high security.
